PCM350K(WTR11) Sanitary Pressure Transmitter

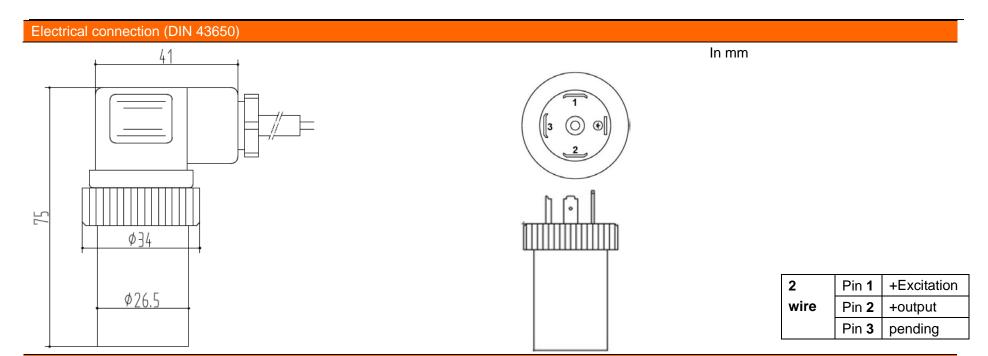

- 1.5" and 2" Tri-Clamp connections
- 4 to 20mA 2-wire output, others available
- CE certificate

PCM350K(WTR11) meet the sanitary standard for pressure and level measurement in food, pharmaceutical, cosmetic, and beverage industries. It is designed for "clean in place" (CIP), and "sterilize in place" (SIP) maintenance

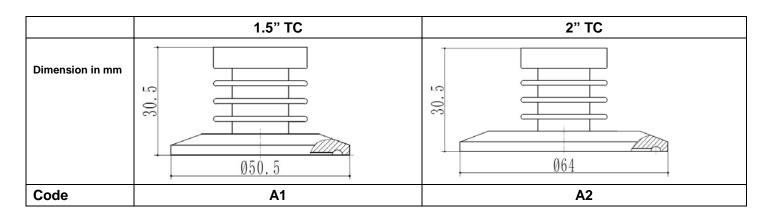

Caution

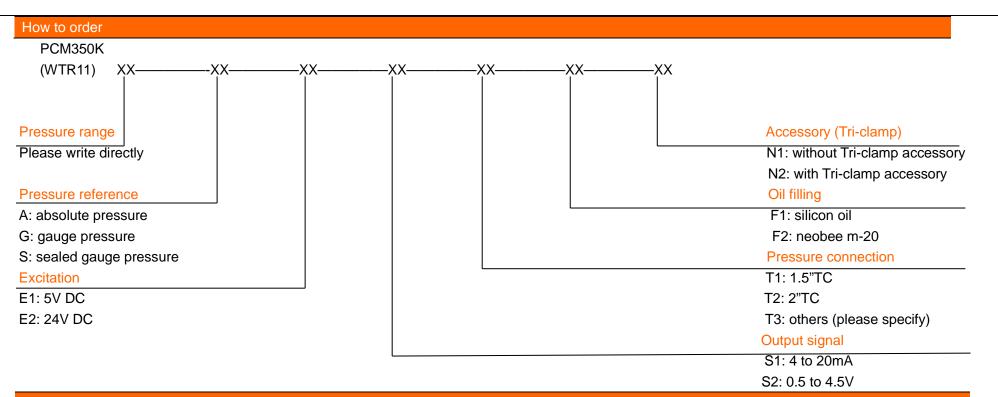

- 1. Please do not touch the diaphragm by finger and other hard objects, or it may be damaged
- 2. The sensor filled with olive oil is for sanitary application. It can't work when the temperature is lower than 0° C, because the olive oil will freeze lower than 0° C.
- 3. Tri-clamp size is determined by the outside diameter of the pipe, not the outside diameter of the ferrule.
